

CONTENTS

	<u>Page</u>
Authors' Introduction . . . . .	1
A. Family Planning: health hazards . . . . .	1
B. Changes in concepts and patterns of sexually transmitted diseases (STD) . . . . .	2
C. New Training: Objectives . . . . .	4
D. The plan of presentation . . . . .	5
E. Pretests . . . . .	6
 <u>MODULE 1</u> - Basic concepts and definitions	 7
1.1 Learning objectives . . . . .	7
1.2 Pretest . . . . .	7
1.3 Answers to pretest . . . . .	8
1.4 Learning content . . . . .	9
1.5 Exercises . . . . .	10
1.6 Summary . . . . .	11
1.7 Evaluation . . . . .	12
 <u>MODULE 2</u> - Latest news of old problems	 13
2.1 Learning objectives . . . . .	13
2.2 Pretest . . . . .	13
2.3 Answers to pretest . . . . .	14
2.4 Learning content . . . . .	14
2.4.1 Syphilis . . . . .	15
2.4.2 Gonorrhoea . . . . .	15
2.4.3 Chancroid (Ulcus molle, "soft chancre") . . . . .	16
2.4.4 Lymphogranuloma venereum (climatic bubo, Frei's disease, L. inguinale, LGV) . . . . .	16
2.4.5 Chlamydia trachomatis . . . . .	17
2.4.6 Granuloma Venereum (inguinale, Donovanosis) . . . . .	17
2.5 Summary . . . . .	18
2.6 Exercises . . . . .	18
2.7 Evaluation . . . . .	19

<b>MODULE 3 - Infections caused by Chlamydia microbes</b>	<b>21</b>
3.1 Learning objectives . . . . .	21
3.2 Pretest . . . . .	21
3.3 Answers to pretest. . . . .	22
3.4 Learning content . . . . .	23
3.4.1 The expanding role of chlamydia . . . . .	23
3.4.2 Properties of chlamydia . . . . .	23
3.4.3 Chlamydia urethritis (NGU) in males . . . . .	24
3.4.4 Chlamydia urethritis in women . . . . .	25
3.4.5 Pelvic Inflammatory Disease (PID) . . . . .	26
3.4.6 Epidemiological trends . . . . .	27
3.4.7 Additional facts concerning chlamydia . . . . .	27
3.4.8 Treatment . . . . .	29
3.5 Summary . . . . .	29
3.6 Exercise . . . . .	30
3.7 Evaluation . . . . .	32
 <b>MODULE 4 - Viruses and Mycoplasma as causes of STD</b>	 <b>33</b>
4.1 Learning objectives . . . . .	33
4.2 Pretest . . . . .	33
4.3 Answers for checking . . . . .	34
4.4 Learning content . . . . .	35
4.4.1 Herpes viruses as causes of severe STD . . . . .	35
4.4.2 The causative agent and symptoms . . . . .	35
4.4.3 Other differences in Herpes viruses . . . . .	36
4.4.4 HSV and family planning . . . . .	37
4.5 Other viruses . . . . .	38
4.5.1 Cytomegalovirus (CMV) . . . . .	38
4.5.2 Hepatitis . . . . .	39
4.5.3 Human papillomavirus (HPV) . . . . .	40
4.5.4 Infectious mononucleosis (glandular fever) . . . . .	40
4.6 Mycoplasma infections . . . . .	41
4.7 Summary . . . . .	42
4.8 Exercises . . . . .	44
4.9 Evaluation . . . . .	44

<b>MODULE 5 - Acquired Immune Deficiency Syndrome (AIDS)</b>	<b>45</b>
5.1 First reports . . . . .	45
5.2 Spread of AIDS . . . . .	45
5.3 Signs of AIDS . . . . .	46
5.4 Isolation of a retrovirus . . . . .	46
5.5 Properties of HIV . . . . .	47
5.6 Transmission of infection . . . . .	48
5.7 Diagnosis of AIDS and ARC . . . . .	48
5.8 Responsibilities of health care personnel . . . . .	49
5.9 Primary risk groups for HIV, AIDS and ARC . . . . .	49
5.10 Other persons at risk . . . . .	51
5.11 Safety from infection . . . . .	51
5.12 Policies for family planning and sex counselling units . . . . .	52
5.13 Ethics and confidentiality . . . . .	52
5.14 Current prevalence of AIDS and HIV . . . . .	53
5.15 Precautions to be observed in clinics . . . . .	54
5.16 Prognosis and treatment of HIV, ARC and AIDS . . . . .	54
5.17 Exercises . . . . .	55
5.18 Note from Division of Communicable Diseases, World Health Organization, on the safe handling of blood-containing specimens. . . . .	55
 <b>MODULE 6 - Vaginal inflammation and some other STDs</b>	 <b>60</b>
6.1 Learning objectives . . . . .	60
6.2 Pretest . . . . .	60
6.3 Learning content . . . . .	60
6.3.1 Vaginitis . . . . .	60
6.3.2 Pretest answers . . . . .	61
6.4 Trichomoniasis . . . . .	61
6.5 Candida albicans and other yeasts in the vagina . . . . .	63
6.6 Haemophilus vaginalis infection . . . . .	64
6.7 Some other STDs and related conditions . . . . .	64
6.8 Summary . . . . .	65
6.9 Exercise . . . . .	65
6.10 Evaluation . . . . .	65
 <b>MODULE 7 - Pelvic Inflammatory Diseases (PID): A major problem for family planning</b>	 <b>67</b>
7.1 Learning objectives . . . . .	67
7.2 Pretest . . . . .	67

7.3	Learning content . . . . .	68
	7.3.1 Clinical epidemiology of PID . . . . .	68
	7.3.2 Symptoms . . . . .	70
	7.3.3 Late complications . . . . .	71
7.4	PID and IUD . . . . .	72
7.5	Treatment . . . . .	73
7.6	Exercises . . . . .	73
7.7	Summary . . . . .	74
7.8	Evaluation . . . . .	74
 <b>MODULE 8 - Revision - General effects of STDs</b>		 76
8.1	Learning objectives . . . . .	76
8.2	The main changes in pattern of STDs . . . . .	76
8.3	Special problems . . . . .	78
8.4	Summary . . . . .	79
8.5	Evaluation . . . . .	79
 <b>MODULE 9 - Case studies of STD</b>		 80
9.1	Learning objectives . . . . .	80
9.2	Differences in types of service . . . . .	81
9.3	Urethral symptoms . . . . .	81
9.4	Vaginal discharge . . . . .	83
9.5	Symptoms of pelvic inflammation (PID) . . . . .	84
9.6	Guidelines concerning PID . . . . .	84
9.7	IUDs . . . . .	86
9.8	Infertility . . . . .	86
9.9	Genital ulcers and herpetic lesions . . . . .	87
9.10	Summary . . . . .	89
9.11	Exercise . . . . .	90
9.12	Evaluation . . . . .	90
 <b>MODULE 10 - Programmes for the control of STDs</b>		 91
10.1	Learning objectives . . . . .	91
10.2	Pretest . . . . .	91
10.3	Control at different levels and updating the control (including answers to pretest) . . . . .	91
10.4	Training . . . . .	93
10.5	Summary . . . . .	94
10.6	Exercise . . . . .	95
10.7	Evaluation . . . . .	95

<b>MODULE 11 - Comprehensive post-tests - Proposals for discussion</b>	96
11.1 Aims . . . . .	96
11.2 Some questions . . . . .	96
11.3 Points to be included in answers to the questions . .	97
11.4 Proposals for discussion . . . . .	101
11.4.1 Collaboration . . . . .	101
11.4.2 Relevant health education . . . . .	102
11.5 Points for discussion . . . . .	102
11.6 New responsibilities and opportunities . . . . .	103

### Appendices

Appendix 1 - Sexually transmitted diseases due to bacteria. .	105
Appendix 2 - Sexually transmitted diseases due to viruses . .	106
Appendix 3 - Sexually transmitted diseases due to miscellaneous agents . . . . .	107
Bibliography and References . . . . .	108

### Tables

Table 3.1 - Chlamydial Infection . . . . .	28
Table 5.1 - AIDS in Europe (total numbers and rates per million population) . . . . .	58
Table 5.2 - AIDS in Europe (transmission, group and sex) . .	59

Evaluation: A suggested evaluation questionnaire for the teacher to use - see end of module
